From the
Chairman's Desk

It gives me immense pleasure that the Koustuv Group of Institutions (KGI) is going to have its second volume of 'Koustuvian Eye' in 2019. I feel ecstatic to have experienced along with my dear students / teachers / staff. The unity of Koustuvians which unraveled over the 21 years was truly a proof of Koustuv's scale & strength. As Koustuvians we should be immensely proud. A strong unity has led nations to create history and societies to change for the better. A gathering of the people does not necessarily symbolize unity. It is a feeling, a motivation, a resolve. Let us make unity, our springboard for ever higher growth. I am convinced the years ahead will come with much longer celebrations, as long as we stay committed to our values, motivated towards our goals and united in our efforts. As we stand together, let us continue to rise together.

I hope this latest refurbished issue of our newsletter 'Koustuvian Eye' will incorporate all our student-centric activities and will be interesting for the readers.
